Double Mirrors

Double Mirrors

by Dylan Robert Tauber

"Mankind's inexhaustible quest for truth/god/love or however else one wishes to refer to our search for the unattainable, can be accounted for by what I refer to as my theory of the Double Mirrors."

Dylan, *Son of Waves*, 1993

Double Mirrors is a 400 page account of a 6 year journey from a yeshiva in Milwaukee, to NYC, to Israel New Jews and dolphins and finally a move to Jerusalem dreaming of finding The Ethiopian Woman, all revolving around a vision of parrallel mirrors.
